

EVE KING

Great Oaks Harrison High School

Beyond DECA

Outside of DECA, I maintain a schedule full of challenging classes and amazing extra-curriculars. I am an officer on the robotics team, Student Council secretary, a member of National Honor Society, a part of the marketing team for Drama Club, a state officer for Ohio TSA, and a member of Student Leadership. I also teach a class of 2-3 grade students at my church and volunteer with the children's musical.

My Platform

If elected to serve as a state officer, I have several goals for my time in office.

- Improve connection between chapters, districts, and state officers
 - Work to create district officer positions to improve connections between chapters within each district and support communication between districts and state officers
- Create a platform for competition preparation resources to help every Ohio DECA member feel completely ready to compete
- Increase participation and involvement in Ohio DECA ONE calls to foster engagement throughout the state

About Me

My name is Eve King, and I am a Junior at Harrison High School. I am a 3rd year DECA member and currently serve as my chapter's Vice President of Competition. Throughout my three years in DECA, I have grown and learned so much as a leader, competitor, and person, and I am passionate about giving that same experience to all members of Ohio DECA.

DECA Experience

My experience in DECA over the past three years has presented me with so many incredible opportunities. As a Freshman and Sophomore, I attended both the District 5 and State Fall Leadership Retreats to continuously develop my leadership skills. My Freshman year I competed in Principles of Business Management and Administration and placed first in Ohio, advancing to ICDC. I then competed in Human Resources Management as a Sophomore and placed first in Ohio. I was also involved in one of my chapter's leadership teams as a Sophomore, which allowed me to work on fundraising and communication for my chapter. I ran a concession stand fundraiser which raised over \$800 for my chapter, and I worked with my team to develop monthly newsletters to provide chapter updates. As a Junior, I have been able to organize my chapter's mentor program and be a part of creating competition preparation experiences for our new members. All of these opportunities have fostered my love of leadership and my love for DECA, which is what has led me to pursue a State Officer position.
